

SOLID

The Solid system is designed to provide a seamless solid color finish to any concrete surface. The system requires minimal maintenance while offering tremendous durability. Incorporate into residential, commercial, industrial and retail settings.

This flooring choice utilizes our Global Garage Flooring coating process. The result is a highly durable yet aesthetically appealing concrete floor finish.

Our coating process is the best on the market and will make your garage or space a pleasure to be in for a lifetime. Most jobs are installed in just one day and you'll be walking on it the next.
